

Grit, gristle, and big rock melodies come alive in the music of Loud Angel!

Feisty energy tangles with the big “vodka-soaked vibe” of original, raucous, hard-rock classics. The music of Loud Angel welcomes listeners to a world where you play as hard as you can, before you finally crash, hopefully right before the sun comes up, after a long night of partying!

Johnny Metal started the act in 1990. Loud Angel began by performing cover songs, but before too long, the creative juices that flowed through the band proved unsatisfied with merely offering renditions of other artists’ music. There was no doubt about it...Loud Angel was to become an all-original band.

Following the dissolution of the original Loud Angel line-up, Johnny was bound & determined to reassemble the band and continue forward. From that dream and desire, sprang the new and improved Loud AnRaffaele Salzonogel: Johnny Metal – Lead Guitar Ironica– Lead Vocals Paul Pasciak – Drums/Vocals Johan Nilsson– Bass Guitar/Vocals

“Together, this band is determined to take it to the limit,” Loud Angel and company declare! The next step in Loud Angel’s conquest will be more live shows, hopefully leading up to an expansive tour. Loud Angel is locked and loaded and ready to take the world by storm!

Already in the band’s history, Loud Angel has emerged victorious in the Harley Davidson Battle of the Bands competition with over 200 bands competing. Johnny

Metal has been featured in Guitar Player magazine and recently, Loud Angel appeared in *The Brevard Live Magazine*.

Loud Angel's music is being played on radio stations worldwide. Loud Angel has also received high praise in newsprint and has consistently held high positions on the IndieGlobal Charts.
